SCRIPT 1 – INFORMATIVE, FOR CALL OR FLYER

Hello Neighbor,

I am a neighbor of yours and am concerned about the trustworthiness of our local, state and federal elections.

Colorado began all-mail ballot elections with the passage of the Voter Access and Modernized Elections Act, which was signed into law on May 10, 2013.

Since this time there has been uncertainty in our elections whether a Colorado citizen's vote is being counted accurately and whether ineligible voters have diluted a citizen's vote.

Could you share your opinion of how confident you are that our current elections are being conducted in a way to ensure fairness and accuracy in the counting of votes?

I am working with a team of citizens strongly requesting our elected officials return to one day, in-person voting on paper ballots which are hand-counted by the citizens at the precinct level. Our team is in the process of recruiting 4000 citizens, including Democrat, Unaffiliated, and Republican certified voters in Arapahoe County, to be trained to carry out a proven, secure method of hand counting ballots at the precinct level.

Would you consider helping with these efforts by going through our fun, easy method of Hand Counting training? The training session takes about 2 ½ hours and you would be doing it with other neighbors and friends who live in Arapahoe County.

You may go to info@coloradocountsarapahoe.com for more information and to register to help. Thank you for your time and your willingness to help us return to trustworthy elections here in Colorado.

Please feel free to call or text if you have questions.

SCRIPT 2 - SHORTER

Hello!

A group of us are preparing Arapahoe county citizens to hand count our ballots at the precinct level, as everyone used to do. We are teaching teams to hand count using a transparent method that is fast, fun, and accurate. This method double-checks everything in process, fast enough to finish counting on Election Night. It doesn't cost much; you just need office supplies and the place to count.

[Optional – use for people who are politically opposed] We want bipartisan teams, because we want everyone watching everything. We may not agree on much, but we can all agree we have the right to see our ballots get counted correctly. If you're concerned about election fraud, you'll want to join us and see for yourself whether we count right. If you think only crazy people worry about election fraud, you'll want to join us to make sure the crazy people can count!

For now we are just getting a list of people who could be available for a few hours at your local polling station on Election Night. As we get things set up we'd check back with you to make sure you're still available. If you are an American citizen, a registered voter, and you can count and add, that's all the experience you need!

The training is quick and easy; if you'd like to learn it now, we'll get you in a class right away. Otherwise, just give us contact information and we'll get with you closer to the time.

SCRIPT 3 – CASUAL

Hi! I'm collecting a list of people who would be willing to help hand count paper ballots, if it comes to that in our county. We just need you a few hours Election Night, and probably a quick training session when the time comes. Mind if I add you to the list?

SCRIPT 4 – PRECINCT COORDINATOR

Americans are shocked that a no-brainer like requiring voter ID is massively popular across all parties, yet politicians don't even want to discuss it. How did these people get into office, and how do we make them actually represent us?

This year could be the final year to save our republic. Just voting is not enough anymore; we have no confidence in our elections because we don't know who counts the votes. Elections belong to the citizens, and citizens should hand count the ballots where everyone can see!

We are recruiting hand counters, but I'm calling you because I see a bigger role for you.

Our founding fathers designed our system of government to be most powerful at the most local level. By organizing your neighbors to hand count your own precinct, you will return our system of government to its full power. You will also show your neighbors that your party cares about

their right to vote, and you'll be carrying out historical duties of the party precinct leader, which major parties reward with a powerful vote on the direction of the political party.

We have lots of resources to help you and your precinct team. Join us in rebuilding your country, and your party, from the bottom up!
